Dear: Editor of OCEANIDE

I am lecturer at Institute of Governance of Home Affairs (IPDN), Indonesia

I have completed a scientific article entitled "**Regional Government Management Control in the Implementation of Risk Governance**". We hope this article can be published in OCEANIDE journal, because there are interesting findings in the scientific article that can become new treasures in science.

I am willing to go through the review process following OCEANIDE journal standards.

Best Regards,

Dadang Suwanda

Dear
Dadang Suwanda
Institute of Governance of Home Affairs (IPDN), Indonesia

OCEANIDE journal Editorial Board has reviewed your article, the research topic is very interesting, but we decided that your article could not be accepted immediately. You must improve your article on several points.

I am sure you are willing to make this improvement because your scientific articles must meet OCEANIDE journal standards.

Please correct your article according to the instructions from OCEANIDE journal reviewers.

Reviewer 1

1. In the introduction, the author has presented several research results well. But if there are still supporting studies, the author can still add them.
2. The methodology is sufficient and the literature review is also sufficient so that it only requires a small addition.
3. Conceptual findings need to be clearly stated.
4. References must be in current journal.

Reviewer 2

1. The authors can improve the abstract, especially from the aspect of the findings. In the introduction, the author needs to present appropriate reference notes.
2. There is a considerable relationship with the normative literature. However, the authors are advised here to broaden the focus, using a more recent journal. The research methodology section needs to be added with how the data is collected, because this will be transparent to the reader.
3. The conclusions are too short and do not clearly interpret the content of the study. Authors are advised to rewrite their conclusions.

I hope you can make improvements as soon as possible, and send the revised article again via this email.

Best Regards,

Dear

Dadang Suwanda
Institute of Governance of Home Affairs (IPDN), Indonesia, Indonesia

Based on Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

Reviewer 1

1. The authors can further improve the abstract and its individual sub-heading by adding more information to it. For instance, for the purpose, the authors can add few more lines to set the scene before directly jumping to the purpose i.e. clearly stating the why question.
2. The introduction needs to be strengthened, as currently it does not set the scene appropriately.
3. I find that section 2 is well defined and presented. However, the conceptual findings need to be clearly stated.

Reviewer 2

1. There is considerable connectivity with the normative literature. However, the authors are suggested here to broaden their focus on using top ranking journals.
2. This section can significantly improve, if the research methodology is properly justified and diagrammatically presented, as this will be transparent to the readers.
3. The conclusion is far too short and does not clearly interpret the content of the study. The authors are advised to re-write the conclusion.
4. There is no future research directions presented as the existing research has limitations in terms of statistical analysis. The authors have also not presented any limitations to their existing work in the end.

Articles that have been revised and please send it back via this email.

Best Regards,
